

Advanced Echelon (ADVON) Personnel

- The role of the ADVON is to dispatch to a probable new site of operations in advance of the main body for the purpose of arranging for the unit and it's equipment upon arrival.
- Unit SOP will dictate type of personnel required for the ADVON.
- For NG/ER personnel preparing to mobilize, the ADVON is also required at the mobilization site prior to deployment. NG/ER click on the link below to see a sample mobilization checklist for the ADVON.
